ECPD ACTIVITIES IN THE FIELD OF TRADITIONAL MEDICINE

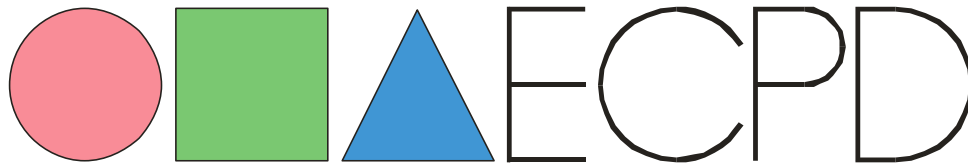

In implementing the strategy “**Health for All**”, one of primary tasks of the **WORLD HEALTH ORGANISATION (WHO)** represents the **PROGRAM OF TRADITIONAL MEDICINE**, adopted in 1991 at the **World Health Assembly**. Having accepted all resolutions of the **WORLD HEALTH ORGANISATION**, **Yugoslavia** took the obligation to support through its institutions this **PROGRAM** and its five major areas of actions, defined as priority of the **WHO** in the area of **traditional medicine** in the period **1990 – 2010**:

- **Development of national programs;**
- **Research of health care systems;**
- **Clinical and scientific research;**
- **Education and training;**
- **Exchange of information.**

This **PROGRAM** is carried out in various parts of Europe by the **EUROPEAN CENTER FOR PEACE AND DEVELOPMENT (ECPD) University for Peace** established by the **United Nations**, which places special emphasis on the preservation of **human resources for development** and conducts comprehensive **educational and research activities**.

In the field of **traditional medicine**, **ECPD** has so far conducted the following actions:

- Signed the **Agreement on Cooperation in Educational Postgraduate Activities in the Field of Traditional Medicine** between **ECPD** and **Federal Institute for Health Protection and Development** Belgrade, based on which the **Federal Commission for Traditional Medicine of Yugoslavia** was established. **ECPD** has its representatives in the **Commission** and partially covers the costs of its work, whereas its tasks are in line with the postulates, resolutions and recommendations of the **WORLD HEALTH ORGANIZATION**;
- Signed the **Agreement on Cooperation in Educational Postgraduate Activities** between **ECPD** and the **Faculty of Medicine University of Belgrade** and the **Agreement** between **ECPD** and **Faculty of Medicine University of Novi Sad** which refer to the **ECPD INTERNATIONAL SCHOOL FOR TRAINING IN TRADITIONAL MEDICINE AND POSTGRADUATE STUDIES – at specialist, master and doctoral levels in traditional medicine, new technologies in medicine, health economics and organization, health management, etc.;**
- Established the **ECPD INTERNATIONAL PROGRAM for Biomedical Research and Traditional Medicine**, which was introduced in 1988. This Program is carried out in the premises of the **INSTITUTE FOR MEDICAL PHYSIOLOGY** of the Faculty of Medicine in Belgrade and includes: **ECPD INTERNATIONAL SCHOOL OF TRADITIONAL MEDICINE** and **ECPD CABINET OF TRADITIONAL MEDICINE**.

ECPD INTERNATIONAL SCHOOL OF TRADITIONAL MEDICINE

ECPD INTERNATIONAL SCHOOL OF TRADITIONAL MEDICINE Belgrade was founded on the basis of the ECPD's **goals and mission** in the field of traditional medicine and the **recommendations of the World Health Organization ON COMPLEMENTARITY AND INTEGRATION OF MODERN AND TRADITIONAL MEDICINE.**

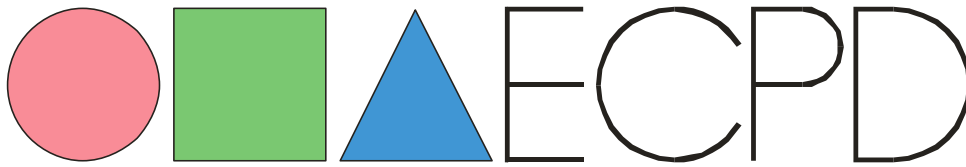

The **School** is intended for **doctors and dentists**, as a **form of professional development.** **LECTURES PROGRAM in traditional medicine** is divided into three levels of courses: elementary, intermediate and advanced. Since **1989 to present date, 37 elementary courses have been organized (920 participants), 20 intermediate courses (512 participants), 16 advanced courses (412 participants) and 24 integral courses (180 participants).**

In order to improve the teaching, ECPD concluded **COOPERATION AGREEMENTS** with the following institutions:

- **International College for Acupuncture and Electro-Therapeutics, New York;**
- **Institute of Acupuncture and Moxibustion of the Academy for Traditional Chinese Medicine, Collaborating Center WHO, Beijing;**
- **Institute of Traditional National Medicine Russian Academy of Sciences, Moscow;**
- **ECPD Institute of Preventive Medicine, Political and Health Psychology, Heidelberg;**
- **Federal Institute for Health Protection and Development, Belgrade;**
- **Serbian Medical Society, Belgrade;**
- **Faculty of Medicine, Belgrade;**
- **Faculty of Medicine, Novi Sad;**
- **Faculty of Medicine, Skopje;**
- **National Institute of Public Health, Athens;**
- **National Institute of Public Health, Ulan Bator;**
- **World Federation of Acupuncture and Moxibustion Societies (WFAS) Beijing;**
- **Liaoning Overseas Chinese Research Institute of New Medicine Shenyang;**
- **University of Novi Sad;**
- **University of Niš; and**
- **University of Banja Luka.**

Participation in the courses delivered by distinguished experts in traditional and modern medicine from different countries allows complete and modern professional development of **doctors and dentists** and represents a step forward towards creating comprehensive, unique system of medical knowledge with a view to achieving quality human life.

After the final examination is successfully passed, participants receive an **INTERNATIONAL DIPLOMA ISSUED BY ECPD University for Peace**, which is recognized in all **United Nations** member states.

CURRICULUM OF THE INTEGRAL COURSE IN TRADITIONAL MEDICINE AND ACUPUNCTURE

Introduction in traditional medicine

Traditional medicine and the World Health Organization
Systematization and Classification of traditional medicine systems, methods and techniques
National domestic medicine
Tibetan medicine
Mongolian medicine
Medico-legal aspects of traditional medicine
Specificities of Chinese traditional medicine
History of acupuncture

Traditional Chinese medicine I

Physiology and pathophysiology

Yin-Yang and Five Elements
Qi, blood and body fluids
Physiology of Zang-Fu organs
Ethyology in traditional Chinese medicine
Differentiation of syndromes, eight principles

Learning about channels and points

General information on channels and points
Regular and extra channels and points
Specific points I
Extra points

Diagnostics in traditional Chinese medicine

Four diagnostic methods
Diagnostics of the pulse and tongue

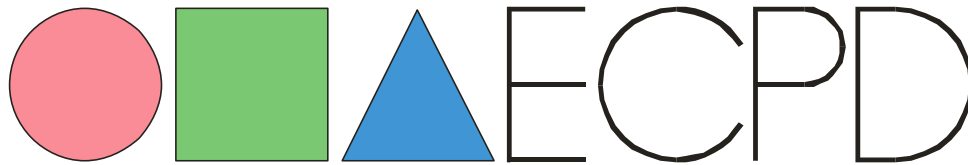

Therapy in traditional Chinese medicine

Principles of acupuncture therapy and selection of points
Techniques of acupuncture and moxibustion
Microsystems in acupuncture

Modern medical science and acupuncture I

Modern explanation of acupuncture mechanisms
Methodology of scientific research in acupuncture
Homeostasis in modern and traditional medicine
Neurophysiological basis of acupuncture; role of autonomous nervous system
Changes in electric properties of the cell membrane for interpretation of acupuncture effects
Basis of embryology and acupuncture
Role of lungs in modern traditional medicine
Modern interpretation of autoimmune diseases
Integration of modern and traditional medicine

Practical exercises

Therapy methods and techniques of traditional medicine

Phytotherapy in our national medicine

Chinese phytotherapy

Qi-gong

Siacu

Tuina

Cranio acupuncture

Relaxation techniques

Energy nutrition

Ajurveda

Junani medicine

Chiropractic

Aromatherapy and chromotherapy

Homeopathy

Traditional Chinese medicine II

Pathophysiology

Pathophysiology of Zang-Fu organs

Learning about channels and points

Specific points II

Extra channels

Treatment by acupuncture in accordance with principles of traditional Chinese medicine

Bi syndrome and headache

Diseases of the nervous and locomotive systems

Diseases of the respiratory and cardiovascular systems

Diseases of the digestion system

Gynecology

Modern medical science and acupuncture II

Neurophysiological mechanism of pain

Endocrinological interpretation of stress and acupuncture

Obesity – etiopathogenesis, division and indications for use of acupuncture

Role of kidneys in modern and traditional medicine; initiation of normal mediatory factors of renal origin by acupuncture

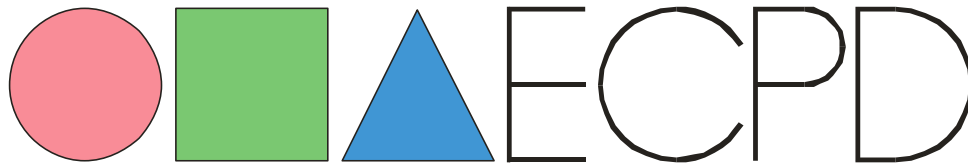

Acupuncture and immune response

Thanatologic test of acupuncture points and their significance in court medicine

Basis of quantum – information medicine

Classical and quantum information channels in biological systems

Use of quantum – information medicine in diagnostics and therapy

Clinical use of acupuncture

- Acupuncture and psychosomatic diseases**
- Acupuncture in neurology**
- Acupuncture in ORL**
- Acupuncture in gynecology**
- Acupuncture in sports and physical medicine**
- Acupuncture in addictive diseases**
- Esthetic acupuncture**
- Magnetic stimulation in pediatrics**
- Laser in acupuncture and electroacupuncture**

Traditional Chinese medicine III

- Auricular acupuncture**
- Chronotherapy**

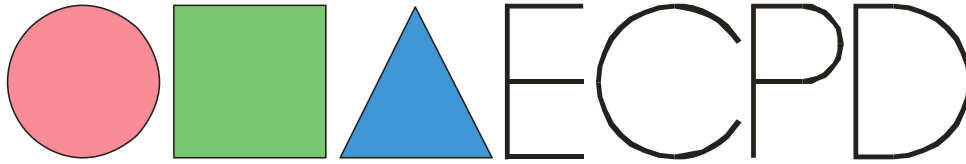

Modern medical science and acupuncture III

- Integrative function of the brain in the mechanism of acupuncture stimulation**
- Neuroendocrinal basis for the use of acupuncture**
- Stimulation of endobodies of the blood vessels and acupuncture**
- Eicosanoid system from the aspect of acupuncture**
- Experimental research of effects of magnetic and electroacupuncture stimulations**
- Reography of the brain in the valorization of effects of acupuncture treatment**

Biophysical approach to acupuncture

- Qi Engineering**
- Biophysical nature of acupuncture and alerted states of consciousness**

Practical exercises
